How to Order your PVC Strip Curtain

1. Measure the width of Opening (A)
2. Measure the Height of Opening (B)
3. Call Arrow on 01482 228202 or use the simple on-line form
4. Tell us the specification or application
5. Sit back

Why ARROWstrip?

- High Quality Extruded PVC
- Cost effective in controlling temperature loss or rise
- Reduced energy bills
- Improves workplace safety
- Improves working environment
- Retains Heat/Chilled Air
- Reduces dust and fumes
- Helps exclude birds and unwanted visitors
- Reduces noise levels
- Temporary or permanent partitioning

Available in variety of widths, thicknesses and colour/application options

ARROWstrip is also available in Double Ribbed extruded PVC, Polar and K-Polar

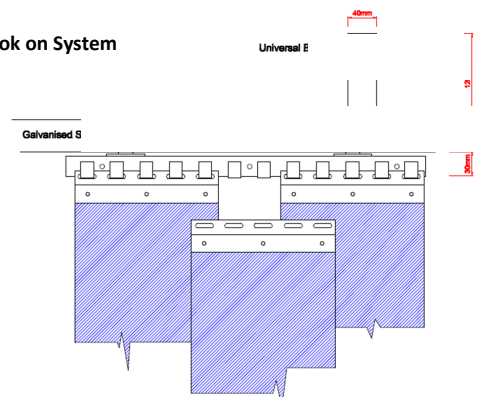

ARROWstrip range of PVC Strip Curtains offer the most cost effective way of cutting heat loss or retaining chilled air in an area where you need to control your environment.

ARROWstrip is manufactured from self-extinguishing flexible PVC. When hung the strips are tough, flexible and capable of withstanding repeated impact from fork lift trucks, pallet trucks and personnel.

Pedestrian friendly, ARROWstrip offers an unrivalled visual clarity and once hung require minimal maintenance.

How to fix your Arrow PVC Strip Curtain

Hook on System

To fit ARROWstrip PVC Curtains simply fix the Stainless Steel Hook on Rail either under the lintel (soffit) or face fix using appropriate fixings in the five pre-drilled holes per rail.

Once securely fixed make a back row of PVC Strips using the simple ARROW overlap guide (see below).

ARROW Overlap Guide		
PVC Strip Width	50% Overlap	100% Overlap
200mm Wide	2 no Hooks between Strips on Back Row	No Gaps
300mm Wide	3 no Hooks between Strips on Back Row	No Gaps
400mm Wide	5 no Hooks between Strips on Back Row	No Gaps

Note: If Red PVC Warning Strips are to be used please place at either end of the opening. Finish your PVC Strip Curtain with the front row of strips.
